

NL50 – SRP BB vs BU – 8c6c sur 9h7c3h

<https://www.poker-academie.com/replayer/main/10125386>

Hand : 8c 6c

Board : 9h 7c 3h

Board where I should as BB raise 5x on 1/3 pot cbet I think since this is a board which villain cannot cbet range and should have a bigger cbet size too.

On the Turn I should have this bet size around pot, this is a good card for me which connects well with my X/R range.

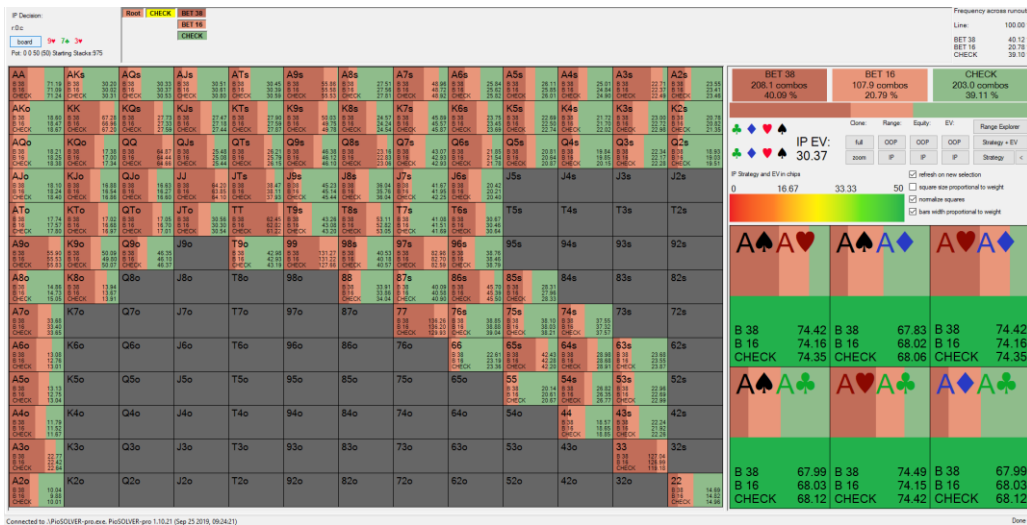

Pio analysis

Hand : 8c 6c

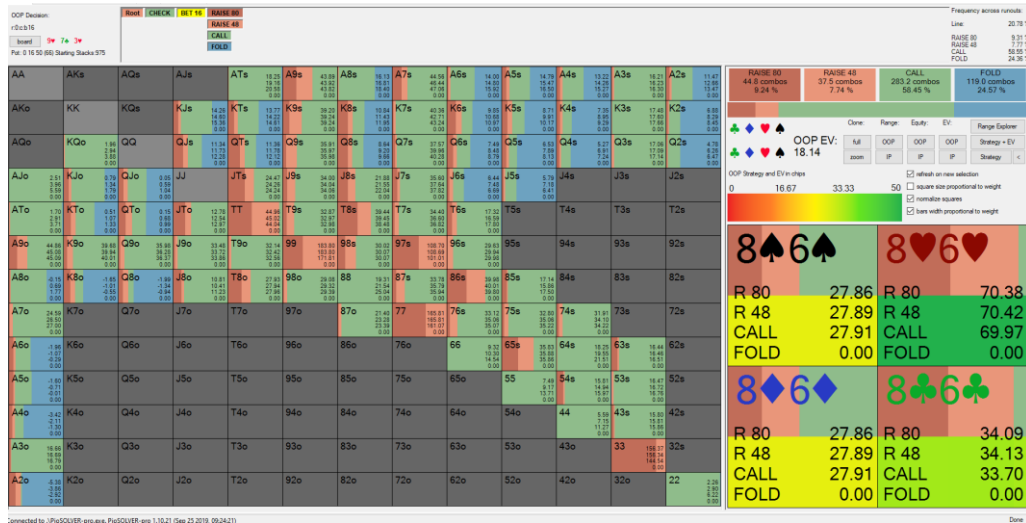

Board : 9h 7c 3h

Board where I should as BB raise 5x on 1/3 pot cbet I think since this is a board which villain cannot cbet range and should have a bigger cbet size too.

Indeed, we see that on this board villain should have a mixed strategy which includes a bigger cbet size and he is only cbetting 1/3 pot 21% of the time.

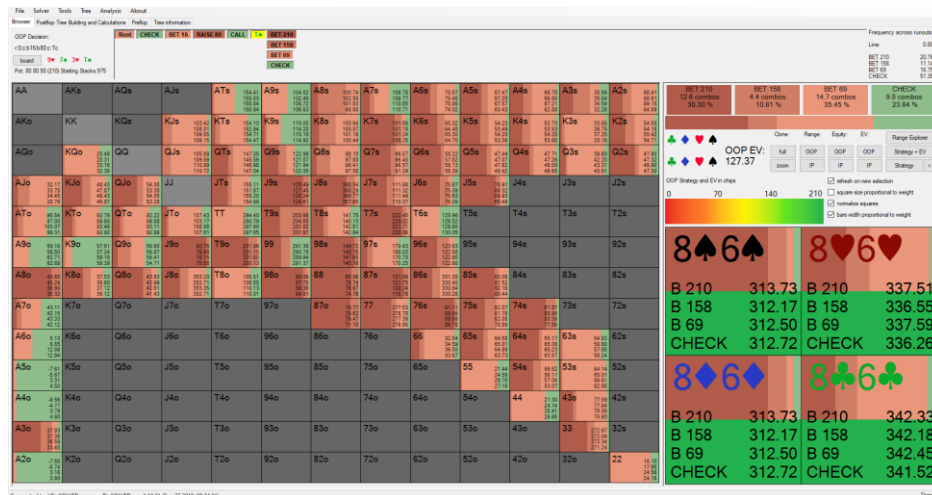

Due to that fact, we see that we are raising 5x more often than 3x and our combo is a good raise 5x even if both are chosen.

The Tc on the turn is a really good card for our range (one of the best card) as we can see here :

OOP Equity	2	3	4	5	6	7	8	9	T	J	Q	K	A

We see that our strategy is to bet really often, between POT or 1/3 (3/4 is not really significant). We also can tell that our combo is pretty much bet 1/3 even if EVs are really closed between 1/3 and POT so betting big is also a good idea.

On the river as we can see, our combo is clearly good enough to shove :

Frequency across runouts:
 Line: 0.09 %
 BET 685: 39.87 %
 BET 158: 18.78 %
 CHECK: 43.35 %

BET 685	BET 158	CHECK
4.1 combos	5.0 combos	3.2 combos
33.12 %	40.78 %	26.10 %

OOP EV: 329.15

B 685	369.82	B 685	586.17
B 158	365.61	B 158	581.94
CHECK	341.91	CHECK	558.64

B 685	369.82	B 685	370.25
B 158	365.61	B 158	360.75
CHECK	341.91	CHECK	339.64

As we can see, blockbetting 25% pot is really often used, mainly with our two pairs and sets and of course some bluffs.
